## PROFILE

I am a web developer with a strong academic background and the ability to learn and collaborate in rapidly changing environments and compositions.

I worked through a 3+ month Intensive Code Camp program inside the Information Technology Institute (ITI), learning JavaScript, MongoDB, NodeJS, ReactJS, and AngularJS. I also finished 6 months of training on the Front-end Web Development Nanodegree program from Udacity.

Skilled at writing well-designed, testable, and efficient code using current best practices in web development. A proven ability to be a hard worker, work under pressure and be a team player. I am eager to take on web development and design challenges that will have a long-term impact on user experience.

## SKILLS

- HTML, CSS
- Responsive Web Design
- JSON and AJAX
- Javascript and es6+
- TypeScript
- Bootstrap and JQuery
- React and Angular frameworks
